Activity 1. Global Warming Awareness Campaign

Instructions: The objective of this assignment is to design a Global Warming Awareness Campaign that communicates the importance of climate change and encourages people to adopt more responsible behaviors related to energy use, sustainability, and environmental protection. Students must develop a campaign proposal and present it in a maximum of 12 slides. The campaign should be clear, realistic, visually attractive, and focused on a specific audience.
The presentation must contain the following four main sections:

1. **Campaign Name:** The name should reflect the main message or purpose of the campaign.
2. **Introduction to the Problem:** This section must explain the environmental problem that motivates the campaign.
3. **Implementation Methodology:** This section should explain how the awareness campaign would be implemented. You should design a realistic strategy and describe the main steps required to carry it out. You could consider audience, main message, communication strategy, activities, implementation schedule, resources.
4. **Expected Results:** This section must explain what the campaign is expected to achieve.

The final presentation must contain a maximum of 12 slides. The presentation should be sent by email in PDF format.
